Unlocking Growth & Security for UK SMEs with Microsoft 365 Business Premium

Your complete guide to enterprise-grade productivity, security, and AI - built for small and medium businesses.

The Modern SME Challenge

UK SMEs face a perfect storm of threats and demands. The landscape is shifting - and standing still is no longer an option.

Survival at Stake

60% of UK SMEs fail within 3 years, with cyberattacks on small businesses surging 150% in just two years.

Hybrid Demands

Remote and hybrid work requires secure, flexible, and cost-effective IT — not patchwork solutions.

Enterprise Needs, Needs, SME Budget

Growing businesses need enterprise-grade tools without the complexity or cost of enterprise infrastructure.

What is Microsoft 365 Business Premium?

A single, unified licence that combines the Office apps you know with cloud services and advanced security - purpose-built for businesses with up to 300 users.

Everything in One Licence

- Full desktop apps: **Outlook, Word, Excel, PowerPoint, Teams**
- Cloud storage & collaboration: **OneDrive** (1 TB per user) & **SharePoint**
- Install on up to **5 devices per user** - PC, Mac, tablet, or phone
- Advanced security & device management included at no extra cost

Advanced Security Built for SMEs

Business Premium delivers layered, enterprise-grade protection - without needing a dedicated security team to manage it.

Microsoft Defender for Business

Enterprise-grade endpoint protection tailored specifically for SMEs. Detect, prevent, and respond to threats across all your devices automatically.

Azure AD Premium P1

Conditional access policies, multi-factor authentication, and identity protection ensure only the right people access your data.

Data Loss Prevention

Information Protection and DLP policies prevent accidental leaks and give you granular control over sensitive business data.

Simplified Device & App Management

1 Microsoft Intune

Remotely manage every device - enforce security policies, push apps, and apps, and wipe lost or stolen devices instantly.

2 Windows Autopilot

Zero-touch device provisioning means new starters are productive from day one - no IT visit required.

3 Hybrid-Ready

Securely manage both personal and company-owned devices across your across your hybrid workforce with a single pane of glass.

Boosting Productivity & Collaboration

Seamless Teamwork

Microsoft Teams, SharePoint, and Outlook work together as one - chat, meet, call, and collaborate without switching apps.

Real-Time Co-Authoring

Edit documents simultaneously from anywhere. Changes sync instantly - no more emailing versions back and forth.

Automate & Simplify

Streamline repetitive workflows with integrated cloud tools, reducing IT overhead and freeing your team to focus on growth.
